Dear Messrs. Klein and Thomson:

Re: Completion of inspection of Hanford Laboratories

On June 3, 2003, the Washington State Department of Ecology (Ecology) conducted a hazardous waste inspection of generator activities at the 222-S and Waste Sampling and Characterization Facility laboratories operated by Fluor Hanford Incorporated (FH) for the United States Department of Energy-Richland Operations Office.

No violations were revealed at the FH facilities inspected, and Ecology considers the inspection closed. If you have any questions regarding this letter, please contact me at (509) 736-3031.

Sincerely,

Bob Wilson
Compliance Specialist
Nuclear Waste Program
